Processing is carried out on the newest equipment, personnel work in proper conditions, which allows production of high quality walnuts. Agro-Sense has developed extensive network of supply bases throughout Ukraine. Our walnut gardens located in the ecologically clean area of Vinnytsia region. Since 2014, we began selling our own walnut seedlings. The main goal is to insure quality of each consignment. We guarantee the quality of products and the meticulousness of the order, and each and every of our clients may personally come and check everything for himself.
